Hey, How are things progressing? Will you be writing something up on what you learn, and how many dog treats you were forced to use to spare your life's? I'm not here tomorrow so I hope you are at least having fun and learning some new jokes or comedy material for our road show! Going to Wilcox next week and planning our community meeting in Houston for Early April.

Bill, it looks like a place closest to the sites is the Wesley Community Center. We checked it out. There is a basketball gym that can possibly hold a good amount of people. This lady said that many in the neighborhood should know the place.

David, Carrie, & Tina;

That's, great! I hope you have good weather and fantastic results; Sorry I couldn't join you. We are in the midst of a complete recarpeting on our floor, which means packing your entire cube, emptying every drawer, put everything in totes and they cart it away. Change the carpet that night and then you have two days to put it back together and you will never be able to find anything again!!!!!! You even have to take the pictures down, so hopefully I will be able to find our picture from Donna in the hotel lobby, to rehang, you know I's kind of like a trophy!!!

If you are driving past the Woodlawn rec. center could you stop and evaluate the meeting room? If not I understand.

Thanks,
Bill

PS We are planning a meeting the second week of April for the ROD Amendment and a briefing the end of March for the Congresswoman Lee and all the other elected officials, where ever she wants to meet. I will keep you informed. We will be requesting your presence at both of these meetings.

9564879

We will be answering questions on both sites and plan to have representatives from the City, The Water Department, Hardy Toll Road, TCEQ, DSHS, ATSDR, and God if necessary.

In response to community concerns, the DSHS Health Assessment and Toxicology Program staff will be visiting residents in the neighborhoods near the North and South Cavalcade Street Superfund sites. The purpose of the visits is to gather residential concerns that are related to the sites. We will be in the community February 25–27, 2014. We can be reached at 512-981-8397. The attached door flyer will be distributed.

Please forward this information as needed and contact me if you have any questions.
